

# Azumuth

Azumuth is an alternative hard rock band from Melbourne, Australia that was formed in 2007 by New Zealand singer/songwriter Aidan Dickens. Having spent 5 years with his previous band, Aidan decided it was time to move on, and in 2006 made the move to Melbourne.

Aidan recorded and produced Azumuth's self-titled debut album which was released in 2008. At the completion of the album, Aidan enlisted the members he needed for Azumuth to take to the stage. The band comprises keyboardist Adam Rieck, bassist Adverse e fex, drummer Genie, and guitarist Nathan Young.

Signing with Bluepie records in early 2009, Azumuth is now gearing up to take their music to the masses with brand new material from the upcoming Fly EP and Illuminus album.

The album features a diverse set of musical styles, structures and

dynamics, largely attributed to Aidan's variety of influences. While many tracks feature pounding rhythms and bass work, chunky guitar riffs and soaring vocals, some slow the tempo down and incorporate lush strings, acoustic guitars and emotionally-driven vocals.

With Bluepie records onboard, a consolidated line-up and the upcoming release of Illuminus, it is a very exciting time for Azumuth.

## Quotes

"Dickens' lyrics are intelligent and meaningful, the songs melodic, and the choruses extremely catchy and memorable, since Dickens never fails to let it all out on the choruses"

**- Chris & the RadioIndy.com Review Team**

"Illuminus" is the newest release by hard rock/alternative band Azumuth. The record wastes no time getting into heavy guitar riffs with the opening song "For You" but contrarily decorates softer moments with well balanced synths and vocal harmonies. Further surpassing alternative rock expectations is the piano ballad, "Illuminate" which is also accompanied by stunning synth strings. The broad influences and tones elevate this album beyond the typical and will grab hold of the listener with its edgy rock and outstanding musicians who perform with tight accuracy. There's also a nice element to the recordings that's sincere and vulnerably honest. For fans of modern rock with density, this is the new record to check out. The ever popular band, "Tool" may have found their new opening act.

**-Max B. and the RadioIndy.com Reviewer Team**

"Excellent vocals! The song could make it on the vocals alone! Has that new romantic british vibe ala Talk Talk with an indie rock edge. I'm still in shock over the vocals... Fantastic!"

**-End's of the Earth | Garageband.com**

"Good guitar. The vocals are great! The vocal harmonies are a good compliment and create a cool vibe, making the song sound better overall. The instrumental harmonies later on are really nice. I hear good song writing mixed with retro and harder touches. I really like the atmosphere the song makes and the way it leaves off, nice range of emotion."

**-Painted | Garageband.com**

"I dig this song. I like the guitars, I like the vocals and I like everything else. It's not too long either, which would have killed it. It's got a great catchy chorus too. Great job!"

**-Bitter Truth | Garageband.com**

"This song is pretty, well structured, and played almost to perfection. To me this track sounds like it would work great on a soundtrack of a film like 'the crow' or 'queen of the damned.'"
